DEDICATION

It is with great honor, love, and respect that we, the members of the Class of 2003, dedicate our yearbook to Mr. James Cook, Mr. Lou Grimsley, Mr. Lannie Paschall, and Ms. Vanessa Watson. For us, these four represent the epitome of what it means to be an educator. Not only have they taught us valuable lessons — both academic as well as social — during our years at Shabazz, each one of them has also been there for us as a leader, a teacher, a coach, and a friend.

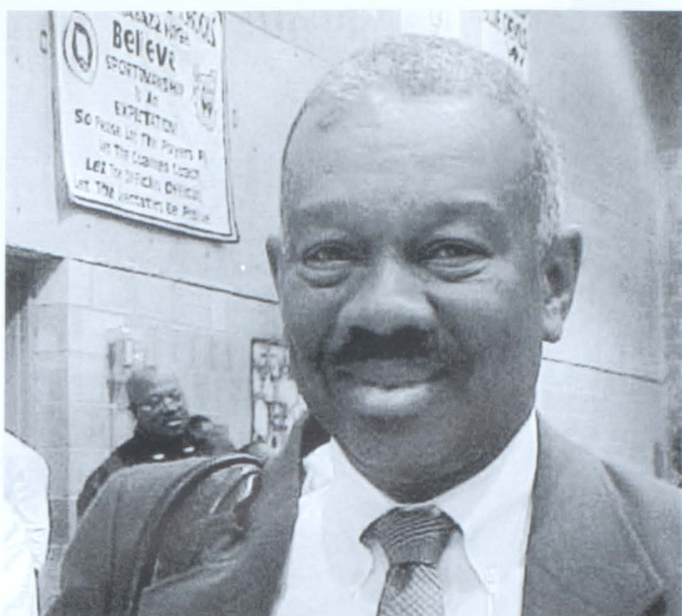

When we first entered Shabazz as innocent, immature underclassmen, these educators took us under their wings and guided us. When we misbehaved, they disciplined us. When we were lost, they gave us direction. When we experienced pain and sorrow, they offered us comfort. When we excelled, they praised us.

For their unselfish devotion and their willingness to always give more of themselves than required, we say thank you. We will be eternally grateful.

We learned
From their lessons.

We developed
From their wisdom.

We became
Because they cared.

Dear Seniors,

It has been a long time since some of us first assembled in room 407 for Freshman Language Arts I. The rest of us came to know each other through various clubs and events at school. In that time, we have learned a lot of lessons in the classrooms and on the playing fields of Malcolm X Shabazz.

We live in difficult times. The world is changing quickly and you must always be willing to learn new things that will help you adapt to those changes. Keep informed and you will always be able to make good decisions.

Stay positive. There are many ways to approach a problem; and any problem can be turned into a blessing as long as you look for the good in it. Value your friends and family because it is through them that you will gain your strength. Put your hopes into the future but live in the moment, one day at a time because what you do today is what shapes your tomorrow.

Best wishes and Good Luck

Principal's Message

To the Class of 2003

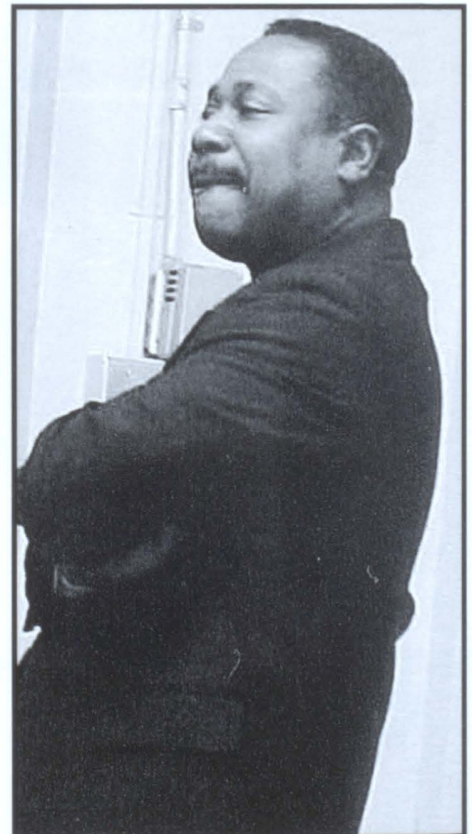

My message to you this year is short yet profound because I hope that it will inspire you to become key players in the world/body-politic. As I sit to pen this message, young men and women, some merely months older than you, are fighting a war in a foreign land. Many of you may be called upon to make the ultimate sacrifice and become a part of the reshaping of the world from the "trenches". I take this opportunity to issue each of you a challenge. I challenge you to become the leaders that we so desperately need in this world community. We need young new people with young new ideas who will be able to shape this "new" world via diplomacy. Who will be able to move new ideas forward in the meeting rooms instead of the battlefields. Who can lead the planet on its unending quest for equality, freedom and prosperity for all.

There will be a place at the negotiating tables for forceful, dynamic, hard working intellectuals. Go forth and prepare, the world needs you.
